JON OSSOFF WILL ALWAYS BE ON OUR SIDE

This is a historic opportunity for Georgia families.

We're up against out-of-control health care costs, record-high unemployment, and economic devastation caused by COVID-19. We deserve a leader who will stand up for us and do what it takes to beat this crisis.

Jon Ossoff is a new leader for Georgia. He's ready to take on the self-dealing politicians and usher in a new era of prosperity, health, and safety for all our families.

JON OSSOFF will fight tooth and nail for a new era of prosperity:

- ✓ Ossoff will rebuild our economy so workers and small businesses can thrive.
- ✓ Ossoff will stop the skyrocketing cost of health care and make sure we all have the coverage we need at a price we can afford.
- ✓ Ossoff will root out corruption in Washington, so our government serves the people and self-dealing politicians are sent packing.
- ✓ He will take immediate action to get COVID-19 under control and deliver relief to families and businesses struggling to stay afloat.

DAVID PERDUE is getting rich while we pay the price:

- ✗ He fought against \$1,200 stimulus checks to workers and wants to cut unemployment insurance.¹
- ✗ Perdue voted four times against protections for people with pre-existing conditions like cancer, heart disease, and asthma.²
- ✗ He raked in tens of thousands of dollars in profit by buying stock in a company that makes submarine parts, and then helping to create legislation that directed Navy funding for one of that same company's products.³
- ✗ After a January 24 closed-door senate briefing on the coronavirus, Perdue bought stock in a company that provides PPE the very same day.⁴

DAVID PERDUE ONLY LOOKS OUT FOR HIMSELF

Perdue is using his office and his access to privileged information to make insider trades and rake in a fortune in the stock market. Meanwhile, Georgia families are left to fight for themselves.

It's time to send Perdue packing.
